PROFILE SUMMARY

Fresher and skilled software developer with hands-on experience in MERN stack development, specializing in ReactJS, MongoDB, Express.js, Node.js, Firebase, and JavaScript. Successfully developed a static webpage for AT'ea Spot, a tea shop, demonstrating my ability to create user-friendly and visually appealing interfaces.

PROJECT

1) WINYO E-COMMERCE WEBSITE (MERN Stack with Razorpay Payment -Test Mode)

- **Comprehensive MERN Stack Development:** Created a robust E-commerce website using MongoDB, Express.js, React.js, and Node.js, incorporating essential features such as user **authentication**, product catalog, and a dynamic shopping cart.
- **Secure Payment Integration:** Implemented a reliable **Razorpay payment gateway** for processing transactions, enabling users to place orders and complete purchases securely within the platform only on test mode.

2) AT'EA SPOT STATIC Website (HTML, CSS, JAVASCRIPT)

- **Developed a Fully Responsive Static Website:** Designed and implemented a visually appealing, responsive static website for **Yuva's AT'ea Spot** using HTML, CSS, and JavaScript, ensuring compatibility across various devices and screen sizes.
- **Integrated Contact Form for Communication:** Incorporated a contact page with a form to facilitate seamless communication between customers and administrators, allowing customers to easily send messages directly to the admin via email.

3) PERSONAL BLOGGER (REACT JS, TAILWIND CSS, MONGO DB)

- **Personal Event Tracking Blog:** Developed a blog site using React.js and styled with Tailwind CSS, designed to record and track special events in your life, providing a personalized platform to capture and document memorable moments.
- **Database Integration:** Utilized MongoDB to store and manage data efficiently, enabling dynamic updates and retrieval of event information to keep the blog up-to-date with new entries and reflections.
