@ **Udemy** Online platform

PROFILE SUMMARY

Recent graduate and fresher in MERN stack development, proficient in MongoDB, Express.js, React.js, and Node.js. Experienced in building responsive web applications and RESTful APIs. Eager learner committed to delivering high-quality solutions and adapting to emerging technologies.

PROJECT

Project - 1

Trip Advisor Clone Website (HTML, CSS, Javascript)

- Objective: Develop a Trip Advisor clone using HTML, CSS, and JavaScript to replicate key features of the original platform.
- Technologies: Utilize HTML5, CSS3, JavaScript, and frameworks like Bootstrap for front-end development, along with Google Maps API for location services.
- Outcome: Deliver a responsive and feature-rich web application that enables users to search, review, and book travel-related services, demonstrating proficiency in front-end development and user interface design.

Project - 2

Udemy Clone (HTML, CSS, Javascript, React.js)

- Objective: Develop a Udemy clone using HTML, CSS, JavaScript, and React.js to replicate the core features of the original platform.
- Technologies: Utilize HTML5, CSS3, JavaScript, and React.js for front-end development, with optional integration of Bootstrap for responsive design and Firebase Authentication for user management.
- Outcome: Deliver a responsive and feature-rich web application that enables users to discover, enroll in, and complete online courses, showcasing proficiency in front-end development and user interface design.

SOFT SKILLS

1. **Communication:** Ability to convey ideas clearly and effectively, both verbally and in writing.
2. **Problem-solving:** Aptitude for identifying issues, analyzing root causes, and developing practical solutions.
3. **Teamwork:** Strong team player with a history of successful group contributions
